Fabricated Tee Strainers are required when an off-the-shelf solution will not meet your exact piping requirements. All of our Fabricated Strainers are made right here in the USA, at our state-of-the-art facility in the southeastern part of North Carolina.

Sizes 2” - 30” Available

MODEL

FT 30 Series - 300 Class

MATERIALS:

- Carbon Steel • Stainless Steel
- Other Alloys

OPTIONS

- Gauge Taps
- Vent - (Standard)
- Drains
- Back Flush Valves
- Semi-Automatic
- Pressure Gauges
- DP Gauge Switch

END CONNECTIONS

Flanged, Raised Face, RTJ, Butt Weld, Socket Weld, Threaded

TEMPERATURE CONTROL

Steam Jacket casing for set temperature control

CUSTOM COVER SOLUTIONS INCLUDING DAVITS & HINGED COVER

HINGED

DAVIT

BOLTED

ANSI CLASSES

ANSI Class 150
up to high pressure 900 class

SANITARY

Sanitary Application
Designs for food/pharmaceutical processing

UNIQUE PROJECTS

Rotated and Offset Nozzles to fit into your applications

STRAINING ELEMENTS

Customize to fit your requirements
Heavy Duty Baskets

Titan FCI’s fabricated products are made to each customer’s unique specifications. Dimensions, materials, and all other product details referenced in this literature are general in nature. Some options may not be available in all sizes and/or models. Titan FCI reserves the right to make design and specification changes to improve the products without prior notification.

For exact product specifications, please consult the Titan FCI factory and request certified engineering drawings.

1. Bill of Materials represents standard materials. Equivalent or better materials may be substituted at the manufacturer’s discretion.
2. Titan recommends keeping spare parts on hand.
3. Buna-N is standard for applications below 250° F. Viton is standard for applications above 250° F.
4. Max mesh size available is 60 mesh.
5. 5/8" perf is standard for all mesh lined straining elements.
6. 2-1/2" NPT is standard

1. Dimensions and weights of the FT 30 Series are provided for reference only. Certified drawings are required for all Titan Fabrications.
2. Face to face values have a tolerance of ±0.06 in (±2.0 mm) for sizes 10” and lower and a tolerance of ±0.12 in (±3.0 mm) for sizes 12” and larger.
3. Center line to top dimension is to the top of the body flange. Quick open cover dimension is to the top of body housing.

Illustrations are representative of Titan FCI fabricated tee strainers; however, as with all fabricated designs, actual products may vary. Certified designs are required for all Titan Fabrications.

Tee Strainers are not recommended for suction applications.

Optional bottom drains (2” NPT Standard) are available at extra cost.
